Each bar code appears like **R 01807P 4105** or **B 00687A 4105** and each bar code has a label header that displays the name of your institution. The first letter is usually a **B** for borrower labels or an **R** for items. The next 5 positions are the "item number" or "borrower number", these values begin at 1 and sequentially increment. The following digit is a checksum test number, it is used internally by the automation software and can be ignored. Finally, the remaining 4-digit number uniquely identifies your location. (For schools, this is more usually the school number). The prefix **R** for item or the **B** for borrower can be substituted for another character if required.
